Re: Job Reference Number - 10687

Adrian,

I would like to start by saying how much I appreciated the effort made by you and the guys in the workshop on Tuesday 22nd January 2008.

To get the job done in the small amount of time it took and the quality of the work is a credit to all those involved and the company.

After visiting another company which will remain unnamed on two occasions, I walked away from them with substandard, inadequate and very very poor workmanship.

Even payment was not a hassle, as the good old aussie TRUST, was put into me and I walked out without paying a cent, which was also fantastic as I had no cash or Cheque book on me.

You will come HIGHLY recommended by me to anyone who needs similar work and I will make sure I use AGFAB engineering for this type of work in the future.

Thank you very much.

Yours Sincerely

Glen Morgan
Total Earthworks Pty Ltd
